December 3, 1959

Poultry used in canning and other processed foods during October 1959, totaled 33,159,000 pounds ready-to-cook weight, up 17 percent from the quantity used in October 1958. The poultry used consisted of 22,040,000 pounds of chickens, 11,098,000 pounds of turkeys, and 21,000 pounds of other poultry.

The quantity of poultry certified under Federal inspection in October was 554,129,000 pounds, compared with 318,854,000 pounds during October last year. The large difference between the two periods continues to be primarily due to the fact that since January 1959, practically all poultry moving into interstate commerce has been processed under compulsory Federal inspection. The quantity certified during October consisted of 365,548,000 pounds of chickens, 184,912,000 pounds of turkeys, and 3,669,000 pounds of other poultry.
